

Trans Clean

General Purpose Aluminium Wheel Cleaner

APPLIED A2544

Description:	<p>Trans Clean is a water based organic acid cleaner specifically designed for removing brake dust build-up and other soils from all types of wheels and aluminium components.</p> <p>Trans Clean does not contain dangerous Hydrofluoric acids and is far safer for the operator and better for the environment generally.</p>
Intended Use:	<p>Trans Clean is widely used for train cleaning where brake dust is highly prominent. It is also used to remove dirt and grime from both rail and road transport.</p> <p>Trans Clean is also suitable for use in laundries for metals and blood stain removal.</p>
Product features:	<p>Safer than conventional wheel cleaners.</p> <p>Very cost effective.</p> <p>Effectively removes heavy build-up of soils and brake dust.</p> <p>Dissolves readily in water.</p> <p>Safe on aluminium, steel, glass and good quality paints and lacquers if used as recommended.</p> <p>Contains no phosphates, silicates, or heavy metal salts.</p> <p>Surfactants are biodegradable.</p> <p>Does not contain Hydrofluoric Acid.</p>
Typical Physical Properties:	<p><i>Technical data should be considered representative or typical only and should not be used for specification purposes.</i></p> <p>Appearance: Clear, straw coloured liquid.</p> <p>Flashpoint: Nil (non-flammable)</p>
Directions for Use:	<p><u>Metal Cleaning:</u></p> <ol style="list-style-type: none"> 1. Dilute Trans Clean with up to 20 parts water for routine cleaning. 2. For heavily soiled areas, a concentration of 1 part Trans Clean with only 3 to 10 parts water may be required. 3. Use brush, mop or spray to apply. Allow to dwell for 2 minutes. 4. Rinse with high pressure or brush while water rinsing. <p><u>Laundry:</u></p> <p>For laundry use see separate bulletin: Applied Trans Clean for Laundries or for more specific recommendations, please contact your Applied Laundry Specialist.</p>
Storage:	Store at -1°C - 59°C.
