

Multi-Purpose Spray Cleaner

Cleaner for Ferrous and Non-ferrous Metals

APPLIED A4855

Description: Applied Multi-Purpose Spray Cleaner (A4855) was formulated as a general purpose spray cleaner for ferrous and non-ferrous metals.

It can be used without a rinse where temporary corrosion inhibition is required.

Intended Use: Applied Multi-Purpose Spray Cleaner (A4855) is a metal cleaner for spray application.

Product features: Excellent cleaning for the removal of a wide range of soils, including oil and grease. Safe to use on most common metals, including steel, aluminium, magnesium, copper and brass.
 Contains no caustic.
 Safe to use on good paintwork.
 Do not need to rinse from the surface.

Typical Physical Properties: *Technical data should be considered representative or typical only and should not be used for specification purposes.*

Appearance:	Red liquid
Fragrance:	Faintly sweet
Specific Gravity (20°C):	1.032
pH (1% solution):	10.5
pH 5% solution:	11.0

Directions for Use:

- Use **Multi-Purpose Spray Cleaner** at a concentration of between 3 and 5%.
- Apply through a spray machine for 3 - 5 minutes at a temperature of 60-70°C.
- Rinsing is not necessary if temporary corrosion inhibition is required.
- **Multi-Purpose Spray Cleaner** solutions should be used at temperatures above 45°C to avoid the generation of excessive foam.
- Generally used at concentrations of 3 - 5 % v/v, however where difficult soils are encountered this may be increased to 8% v/v.
- Concentrations should be carefully evaluated along with temperature to gain maximum soil removal while avoiding possible soil bake on.
- **Multi-Purpose Spray Cleaner** is compatible with most materials used in construction of plant.

Storage: Avoid temperature extremes.

Precautions: Please refer to appropriate safety data sheet (SDS) prior to using this product.
